

Student information evening

at the

Institute for High Voltage Engineering and Grids,
Digitalization and Energy Economics

on

Final Theses and **Hiwi Jobs**

Procedure

Due to the Covid 19 pandemic, the event is being held digitally via Zoom on 23.07.2020. First, Prof. Moser will briefly introduce the IAEW including its research groups and topics. Afterwards, the individual research groups will introduce themselves in separate zoom rooms and answer your questions about research content, final theses, and Hiwi activities. There will be three time slots in which the same content per research group will be presented and discussed with you, so that you can learn about different topics. In the table below you will find a group description and the corresponding zoom room as a clickable link. Registration is not required.

Time schedule

5.00 p.m.	Introduction to the institute (Link , Meeting-ID: 98646989521, Password: iaew_2020)
5.30 p.m.	First presentation round of the research groups
6.00 p.m.	Second presentation round of the research groups
6.30 p.m.	Third presentation round of the research groups

Active Energy Distribution Grids

Distributed Flexibility	Description	Zoom
Energy Distribution Grid Operation & Digitalization	Description	Zoom
Energy Distribution Grid Planning	Description	Zoom
Stability in Energy Distribution Grids	Description	Zoom

High Voltage Equipment and Technology

DC Systems	Description	Zoom
Insulation Systems	Description	Zoom
Primary Technology and Diagnostics	Description	Zoom

Transmission Grids and Energy Economics

Energy Markets	Description	Zoom
Energy System Operation	Description	Zoom
Energy System Planning	Description	Zoom
System Stability	Description	Zoom

FGH e.V.	Description	Zoom
